Appendix 1: Research methods

A desk-based review. A high-level review of data sources, reports and information relating to the non-profit retrofit sector. A key data source in our desk-based review was Community Energy England's 'Community Energy State of the Sector'¹ data (2022 and 2024). We reviewed the Charity Commission's charity register; however, our ability to wield useful results from this huge database was limited by the available search and filtering functions (see Appendix II). We explored the MCS public dashboard; but again, we were not able to get enough granularity of data to be of use.

Analysis of Community Energy England's State of the Sector data (2022 and 2024). There are two key data constraints which shaped our analysis of this data. The first is that, due to timeframe constraints, CSE undertook analysis on the 2024 dataset half-way through the collection period, meaning the response rate that analysis was carried out on was 323 organisations (2022) as compared with 124 organisations (2024). 124 is still considered a significant-enough number that sound comparisons can be drawn. The second point to note is that the survey questions asked across the 2 years has changed. Where this difference is minimal, we have made comparisons; however, in some cases the difference is too big, or certain questions are only present in the 2024 dataset, and we therefore have not drawn a comparison. We have provided some detail on our analysis of the datasets in the main body of the report, with further analysis provided in Appendix III.

Two focus groups. One delivered by Locality with their members (community organisations); and a second, delivered in partnership with People Powered Retrofit, with community energy organisations and other relevant stakeholders.

Sixteen interviews. Conducted with non-profit organisations delivering retrofit services. Organisations covered a range of geographical locations, target audiences, delivery approaches and sizes. Below is a list of the organisations that we interviewed:

1. MCS (Microgeneration Certification Scheme)
2. Brighton & Hove Energy Service Co-operative
3. Bath and West Community Energy
4. Cumbria Action for Sustainability
5. Centre for Sustainable Energy (Futureproof & Communities Teams)
6. Energy Saving Trust
7. Groundworks
8. HEAL (Home Energy Action Lab)
9. Low Carbon Hub
10. Retrofit West
11. People Powered Retrofit
12. Carbon Co-op
13. UK Green Building Council
14. Repowering London
15. Rossendale Valley Energy
16. Plymouth Energy Community

¹ The Community Energy State of the Sector research provides the most comprehensive and inclusive review of community energy in the UK, and is conducted by Community Energy England, in partnership with Community Energy Wales and Community Energy Scotland.
<https://communityenergyengland.org/pages/state-of-the-sector>

Two webinars showcasing initial findings. One aimed at community organisations early on in their journey of delivering retrofit services; a second with organisations who are well established and strategically focused on retrofit.

Appendix 2: Charity Commission data

For the charity register unfortunately, there is no option to filter to provide those delivering retrofit work and so we tried to search using different terms with the results shown below and read the charity objectives information and activities to understand what they are delivering.

You are also not able to filter by where a charity delivers its work and so some of the results were charities registered in the UK but operating internationally. For example, charities installing solar panels in rural Africa.

Search term	Number of organisations	Notes
Energy Efficiency	297	Not all results were linked to energy efficiency, commonly linked terms were; advice, grants, education & fuel poverty. Unlikely all organisations are involved in energy efficiency work. Hard to determine exactly how many are
Retrofit	2	Only one relevant result
Sustainability	370	Charities more generally linked to sustainability rather than specifically energy related
Fuel poverty	26,331	Only able to down 10,000 records at a time and therefore unable to interrogate in more detail.

Overall, there was very little that could be learnt from the data. There are some charities that list energy efficiency as a charitable objective and activities, so elements of retrofit are being delivered by a number of charities. The number of results when fuel poverty also indicates this is also a key part of a lot of charities work, however without being able to analyse the data further we are unable to determine anything else.

Appendix 3: Further outputs from the analysis of the Community Energy England State of the Sector data

As detailed in Appendix 1, as part of our research for this report we analysed the Community Energy England's State of the Sector data (2022 and 2024). Some of the outputs of the analysis are included in the main body of the report; outputs not included in the main body of the report are included below.

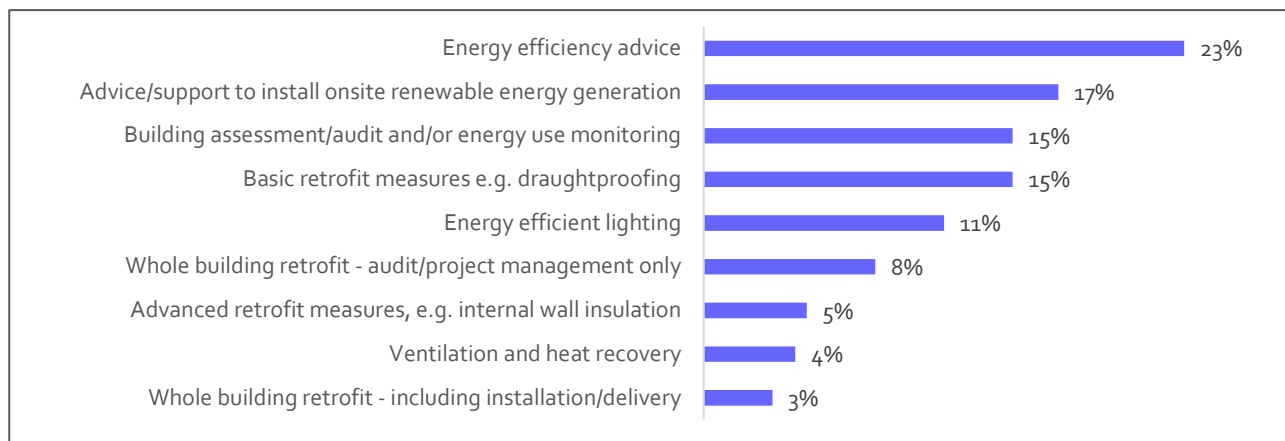

Figure 1. The retrofit services provided by survey respondents

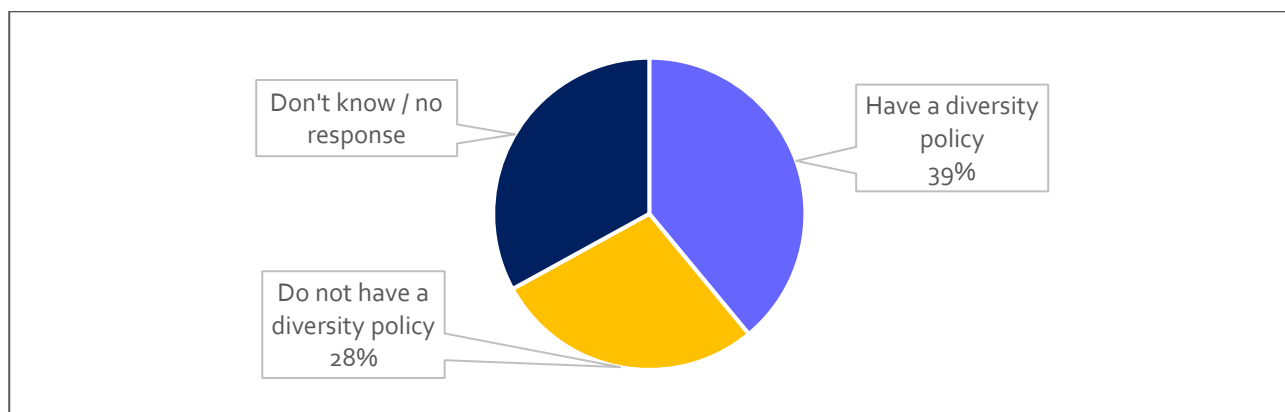

Figure 2. The proportion of survey respondents who have a diversity policy in place

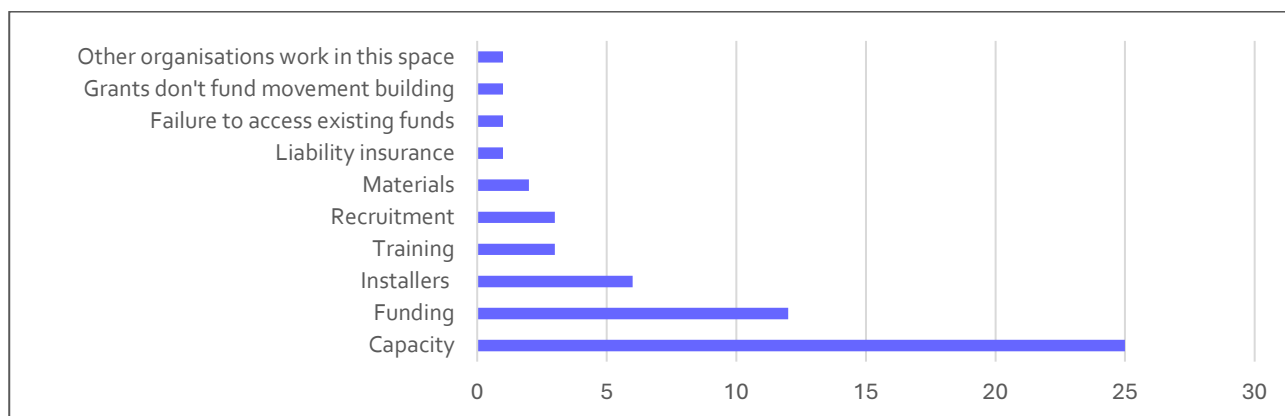

Figure 3. A bar chart showing the barriers to retrofit and energy advice service provision by survey respondents (number of times mentioned)

Appendix 4: Charities, social enterprises and other non-profits delivering retrofit services in England

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
361 Energy	EX19 8DW	North Devon & Torrridge	CIC	10			Supports households in fuel poverty and address the climate crisis by improving the energy efficiency of homes and businesses in our district.	Yes	People powered retrofit service to able to pay and grant funded customers. Energy advice services to businesses	Individualised service for domestic buildings	https://361energy.org/
B4 Box	SK4 1UD	Stockport	Company				Tackling poverty, addressing climate change, promote social justice and address inequalities.	No	Low carbon skills construction training.	Training provider	www.b4box.co.uk
Bath & West Community Energy	BA1 2NN	Bath	Community Benefit Society	13	25	1000	Place based retrofit, trusted impartial advice to the community	No	Retrofit assessments, pre app advice for listed and conservation buildings in the city.	Individualised service for domestic buildings	www.bwce.coop/
B-inspired	LE3 1HR	Leicester	Charity	~15			Responding to the cost of living crisis	No	Training volunteers to deliver in person advice and demonstrate easy to do energy efficiency measures, some work on their own buildings as well	Individualised service for domestic buildings	www.b-inspired.org.uk/
Brighton & Hove Energy Services Co-op (BHESCo)	BN1 1JE	Brighton	Community Benefit Society	7.4	4	407	Just non-domestic to begin with as working on solar with them. Fuel poverty work funded through the council. Improve people's quality of life and community values	Yes	Pilot project looking at place based approach, aiming for 100 of 350 homes in a target area to be retrofitted. Non domestic focused on supporting schools, grown from solar installation work.	Place based	https://bhesco.co.uk/
Briston Energy Network	BS7 8AA	Bristol	Community Benefit Society	6	20	40	Supporting those in fuel poverty	No	Fuel poverty support, advice, workshops and training around retrofit	Individualised service for domestic buildings	www.bristolenergynetwork.org.uk/
Burnham and Weston Energy	TA8	Burham on Sea & Weston-super-Mare	CIC	2	4	380	Supporting those in fuel poverty	No	Home energy visits to those in need	Individualised service for domestic buildings	www.burnhamandwestonenergy.co.uk/
Canopy Housing	LS6 1QF	Leeds	Community Benefit Society		~68		Supporting those with housing needs	No	Work with volunteers to retrofit empty homes using sustainable materials. The housing then goes to those with housing needs who become part of the volunteering team	Training provider	www.canopyhousing.org/

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
Carbon Coop	M4 7HR	Manchester	Registered Society or Coop	17	10	399	Advocacy to reduce home carbon emissions and tackle climate change.	No	Community projects on heat network for social housing, energy advice for marginalised communities, community learning and sharing around home retrofit, training, flexibility services and baseline calculating for home energy use.	Individualised service for domestic buildings	www.carbon.coop
Centre for Energy Equality (CEE)	EC1V 7PD	London	CIC				Equal access to safe, affordable and sustainable energy across all communities.		Carbon Impact Tool - assess the carbon and cost savings of Lendology's home improvement loans. Other software solutions to increasing the uptake of retrofit	Other	www.cee-uk.com/lendology-carbon-modelling/
Centre for Sustainable Energy	BS1 3LH	Bristol	Charity	~120	25		Tackle climate change and end suffering caused by cold homes. Retrofit, fuel poverty and community focus.	Yes	Domestic and non-domestic retrofit advice, including community retrofit guide and DIY energy audit/walkaround.	Individualised service for domestic buildings	www.cse.org.uk
Chase Community Solar Limited	WS14 9DW	Lichfield	Community Benefit Society	0	7	187		No	Home visits	Individualised service for domestic buildings	http://chasesolar.org.uk/
Civic Square	B16 0AB	Birmingham	CIC	~15			Neighbourhood scale civic infrastructure for social and ecological transition	Yes	Empowering communities to improve their infrastructure to improve their environment in a sustainable way	Place based	https://civicsquare.cc/
Climate Action Leeds	LS1 5ES	Leeds	Public Sector				Create a zero carbon, nature friendly, socially just Leeds by the 2030s	Yes	Five year lottery funded programme bringing together organisations from across Leeds to take action on climate change. Creating a city plan on how Leeds will look in the future	Place based	www.climateactionleeds.org.uk/
Community Energy Colchester	CO7	Colchester	Registered Society or Coop	2	3		Supporting energy saving and combating climate change	No	Basic retrofit support, workshops, home visits, energy saving and switching advice	Individualised service for domestic buildings	www.communityenergycolchester.co.uk/
Community Ventures (Middlesbrough) Ltd	TS3 9PA	Middlesbrough	Charity				Employability and support people in the area to take advantage of the opportunities retrofit can bring	No	Signpost and support for retrofit advice. Working with university to look at designing retrofit plans based on local building archetypes	Place based	www.communityventuresvalley.org/
CREW Energy	SW19	London	Registered Society or Coop	3	12	59	Energy advice and community outreach to reduce carbon.	Yes	Energy advice for households and retrofit support for community buildings.	Individualised service for domestic buildings	www.crewenergy.london
Croydon Community Energy	CR2 6PB	London	Community Benefit Society	0	50	44	Fuel poverty	Yes	Energy advice and support, workshop deliver. CEE data says commercial and domestic	Individualised service for domestic buildings	www.croydoncommunityenergy.co.uk/

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
Cumbria Action for Sustainability	CA11 8JL	Cumbria	Charity	~35			Climate change, supporting those in fuel poverty and SMEs with energy support	Yes	Able to pay and fuel poverty customers - advice, home assessments and starting to offer design advice. Energy surveys for businesses and support to access funding	Non-domestic	https://cafs.org.uk/
Durham Community Energy	DL16	Durham	CIC	0.5	2	2	Fuel poverty	No	Fuel poverty and energy switching advice	Individualised service for domestic buildings	
en1oergy	N17 8LG	London	Community Benefit Society	0.2	7	138		Yes	Advice to support renewable generation	Individualised service for domestic buildings	https://en1oergy.org.uk/

Loddon Community Energy	RG26	Hampshire	Registered Society or Coop	0	7	7		No	Home energy surveys	Individualised service for domestic buildings	https://loddoncommunityenergy.org.uk/
Low Carbon Hub	OX2 0ES	Oxford	CIC	16.5	9	1800	Meet energy needs in a way that is good for people and the planet.	Yes	Community-owned renewable energy installations that generate incomes to reinvest into related projects. Collaborates on Cosy Homes with Retrofit Works, supports schools, community grants, LAEPs, and homeowners. Provide energy audits in partnership with Environmental Information Exchange & Oxford Brooke uni. Domestic & non-domestic. Cosy Homes Oxfordshire. Funded originally to deliver the work	Non-domestic	www.lowcarbonhub.org
MaidEnergy	SL6 1DT	Maidenhead	Community Benefit Society	0.2	10	255		No	Home visits & basic retrofit	Individualised service for domestic buildings	www.maidenergy.coop/
Marlow Energy Group	SL7 2JT	Marlow	Community Benefit Society	0	16	80		No	Thermal imaging surveys, maybe open homes	Individualised service for domestic buildings	https://marlowenergygroup.org/
Marshfield Community Land Trust	SN14 8LR	South Gloucestershire	Community Benefit Society	0	15	250		No	Lecture, exhibition and advice	Other	https://marshfieldclt.org/
Meadow Blue Community Energy Limited	BN7 2DA	Lewes	Community Benefit Society	0	6	189		No	Basic retrofit	Individualised service for domestic buildings	http://meadowblue-energy.org/
Muswell Hill Sustainability Group	N10	London		0.2	10	300			Energy, retrofit advice and open homes	Other	https://mhsgroup.org/
Nadder Community Energy	SP3 6HJ	Wiltshire	Community Benefit Society	1	5	128	Reduce emissions and tackle fuel poverty	No	Home visits	Individualised service for domestic buildings	https://www.nadderce.org.uk/
National Retrofit Hub	N1 7RU	London	Company	~12			Sector collaboration - collaborate, empower, facilitate.	No	Created working groups, advisory panel and knowledge hub - support role for the retrofit sector. Funded by Innovate UK and falls under Sustainable Development Foundation as they are not yet registered (location is for them).	Other	www.nationalretrofit.org.uk
Ouse Valley Energy Services Company Ltd CIC (Ovesco)	BN7	Lewes	Company	3.5	4	6		No	Home visits, energy advice, fuel poverty support	Individualised service for domestic buildings	https://ovesco.co.uk/

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
Owned By Oxford (under Community Action Groups Oxfordshire)	OX2 6TP	Oxford	Registered Society or Coop	~5			Bring wealth and power by to local people and communities.	No	Setting up Barton Community Retrofit Cooperative to provide retrofit services, train and upskill local people and provide energy saving advice for residents. Very early stages, not fully up and running. Collaborating with local authority on council properties.	Individualised service for domestic buildings	www.ownedbyoxford.org.uk/barton-community-retrofit-cooperative/
PeCAN	GU32 3HH	Petersfield	Charity				Reduce emissions and protect nature in their area	Yes	Offering retrofit and thermal imaging surveys	Individualised service for domestic buildings	https://petersfieldcan.org/
People Powered Retrofit (PPR)	M4 7HR	Greater Manchester	Registered Society or Coop	12	20	360	Independent advice for high quality retrofit.	Yes	Advice, support, design, quality assurance of domestic retrofit. Contractor training and consultancy for organisations and LAs nationwide. Primarily aimed at the self-funded market	Individualised service for domestic buildings	www.retrofit.coop
Plymouth Energy Community	PL1 2AA	Plymouth	Charity	16	28	650	Enable and empower communities to ensure a fair and just energy transition	No	Grants such as LADS, HUGS. Coordinates assessments and brings in the installers. Lead funding to build capacity of the other community energy organisations to deliver assessments and plans across the county. Work to support contractors to upskill where they want to	Individualised service for domestic buildings	https://plymouthenergycommunity.com/
Power	E4 8	London	Registered Society or Coop		~6		Tackling climate, energy and cost of living crises.	No	Community energy - street level solar. Activism and awareness raising. Campaigning for grassroots Green New Deal.	Place based	www.power.film
Power Up North London (PUNL)	NW1	London		0	30	250			Energy switching, fuel poverty advice	Individualised service for domestic buildings	https://powerupnorthlondon.org/
Raise the Roof	DT6 3DG	Dorset					Responding to the local need for housing	No	Partnership in Bridport looking at how to respond to the need for local housing in conjunction with the climate crisis	Place based	www.raisetherooft.info/
Repowering London	SW9 9SP	London	Registered Society or Coop	~15	~4		Cost savings and community investment - create opportunities for communities to flourish.		Co-create renewable energy projects that are led and owned by Londoners. Feasibility studies, solar installation, fundraising for communities to purchase assets. Specific focus on retrofitting flats as gap in the market and difficult to do. Focused on both able to pay and grant funded work	Place based	www.repowering.org.uk
Rethink Retrofit	HG1 1EQ	Harrogate	CIC	~4			Improve energy efficiency in homes.	No	Work with homeowners and landlords - offer full service from advice/guidance to allocating contractors. Provide retrofit assessments, 'Whole House Plans', engage trusted and skilled contractors.	Individualised service for domestic buildings	www.rethinkretrofit.org.uk

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
Retrofit Action for Tomorrow	SE1 7PB	London	CIC	~27		0	To respond to the climate emergency by accelerating energy and emissions reductions, resource efficiency and climate resilience in schools and communities.	Yes	Architects deliver training into schools and other organisations around retrofit	Training provider	www.retrofitaction.org.uk
Retrofit Balsall Heath	B12 9JU	Birmingham					Community based retrofit	No	Delivering place based retrofit in their Balsall Heath community	Place based	www.facebook.com/RetrofitBalsallHeath/
Retrofit West	BS1 3LH	Bristol	CIC	~8			Energy efficiency.	No	Covers West of England. Funding (grants and loans), home assessment vouchers, training, retrofit advice - domestic.	Individualised service for domestic buildings	www.retrofitwest.co.uk
Retrofit Works	SE11 5DP	London	Registered Society or Coop	~11			Making retrofit easy for homeowners.	No	Design and host energy efficiency and retrofit schemes for homeowners e.g. Cosy Homes (bring together supply chain of local organisations). Run schemes nationwide. Schemes follows place-based approach.	Individualised service for domestic buildings	www.retrofitworks.co.uk
Rossendale Valley Energy	BB4 7RE	Rossendale	Community Benefit Society	0	~5		Empowering local people to help make fuel more affordable and create warmer homes.	No	Delivering net zero terrace looking at low carbon heating at street level for those who can't afford to retrofit and don't have the space for heat pumps	Place based	https://rvenergy.org.uk/
Saffron Walden Community Energy	CB11 3DN	Saffron Waldon	Community Benefit Society	0	4	20	Reduce carbon	No	Workshops, home visits, thermal imaging talks and loaning scheme	Individualised service for domestic buildings	www.swce.co.uk/
South and East London Community Energy (SELCE)	SE10 9EQ	London	Registered Society or Coop	25	21	238		Yes	Support organisations and homeowners to "green" their buildings. Training, workshops, energy audits, feasibility studies and finance for community buildings. Focus on solar and lighting.	Individualised service for domestic buildings	www.selce.org.uk
South Yorkshire Ecofit	S6 3JQ	Sheffield	Social Enterprise				Making homes in South Yorkshire more comfortable and energy efficient whilst meeting our net zero target	No	Delivering retrofit assessments to households and delivering some retrofit measures. Looking at how to apply the model to other parts of Yorkshire	Individualised service for domestic buildings	www.ecofit.uk/
Sustainable Energy 24 Ltd	SE24 0BU	London	Community Benefit Society	0.2	16	100		No	Funding other organisations to provide retrofit support	Other	www.se24.co.uk/
Sustainable Hockerton Ltd	NG25 0QU	Hockerton	Community Benefit Society	0	5	78	Reducing the communities carbon footprint	No	Basic retrofit support and advice	Individualised service for domestic buildings	https://sustainablehockerton.org/

Organisation	Post-code	Location	Legal structure	FTE	Volunteers	Members	Motivators	Non-domestic	Delivering	Category	Link
Teign Energy Communities Ltd.	TQ12	Newton Abbot	Community Benefit Society	0	8	120		No	Home visits, self-help process including tools, apps and ongoing advice	Individualised service for domestic buildings	https://teignenergycommunities.co.uk/
Thames Head Energy	GL7	Gloucestershire	Community Benefit Society	0	7	20		No	Workshops	Other	https://thamesheadenergy.org/
CHEESE Project	BS9	Bristol	CIC	1	6			No	Thermal surveys looking at heat loss in homes	Individualised service for domestic buildings	https://cheeseproject.co.uk/
UK GBC	WC1E 7BT	London	Charity			~700	Sustainability of the built environment.	Yes	Policy influence and guidance on solutions for buildings, communities, cities and infrastructure. Created a 'Retrofit Playbook' in 2021 for local and combines authorities.	Non-domestic	https://ukgbc.org/Retrofit-Playbook.pdf (ukgbc.org)
WeCanMake	BS4 1NL	Bristol	Community Land Trust	~6			Creating affordable housing using microsites across Bristol	No	Building affordable sustainable homes on microsites across Bristol	Individualised service for domestic buildings	https://wecanmake.org/
Wight Community Energy	PO30 4NF	Isle of Wight	Community Benefit Society	0.5	10	300	Low carbon projects	No	Home visits and thermal camera loan scheme	Individualised service for domestic buildings	https://iowcommunityenergy.org/
Wiltshire Wildlife Community Energy Limited	TR16 5EZ	Wiltshire	Company	~8			Keeping people warm over winter	No	Signpost to Warm and Safe Wiltshire, rural community energy support network project in Wiltshire	Individualised service for domestic buildings	https://wwce.org/
Winchester Action on Climate Change	SO22 4NR	Winchester	Charity	~5	~9		Fighting climate change in Winchester District	No	Offering retrofit assessments to the able to pay market in their area	Individualised service for domestic buildings	www.winacc.org.uk/
York Community Energy	YO1 6ET	York	Community Benefit Society	0	~8		Dealing with the climate crisis and supporting vulnerable clients with energy issues	Yes	Started one-stop-shop service funded by InnovateUK Home assessments, put on events to raise awareness, share experience and skills. Have carried out some energy assessments on community buildings	Individualised service for domestic buildings	https://yorkcommunityenergy.org.uk/
